MoveU is a tri-campus initiative launched in 2012, which aims to promote physical activity as a wellness strategy. A central message of the campaign is making physical activity accessible, and that being active doesn't mean taking a break from your real work. Rather, being active is you at your most productive. Students are encouraged to engage in physical activity as a stress reliever, a brain booster, and a social opportunity to improve their quality of life. Many of the initiatives and events are centered on this idea.

Volunteers are at the core of the MoveU Crew and are essential to the development and dissemination of relevant physical activity information and motivation to students. The group consists of a Team Lead who works together with the team to contribute to health promotion on campus. Volunteering provides you with the opportunity to participate in a program that is beneficial to student success and allows you to build skills in team building, leadership, communication and problem solving.
